

Welcome

Thank you for coming to this public engagement event for the proposed Snapewood solar photovoltaic (PV) project. We hope you find our exhibition interesting and informative.

Members of the Abei Energy team are here today and will be delighted to speak to you about the project. Please feel free to ask any questions. We are aiming to submit a planning application by the Spring of 2025 but before we do, it's important to listen to the public's views on the proposal so that these can be considered within the ongoing design process. Please take a moment to complete the questionnaire and provide any comments. Otherwise, please look at our web site, email or write to us to share your feedback:
